Clamshell Extravaganza!

Cindy Seitz-Krug

Cindy Seitz-Krug shares two of her quilts that feature her *Twisted Gingko* clamshell variation:

A Splendid Display, ©2014, 80 x 80 inches, and *Twisted Gingko* clamshell design detail.

Blush, ©2016, 60 × 60 inches, and *Twisted Ginkgo* clamshell design detail.

To create the *Twisted Ginkgo* clamshell design, when marking your grid, you must add diagonal lines so that they intersect the tips and tops of the clamshells. When your twisted grid is marked completely, stitch out the grid. I prefer to stitch the diagonal lines as well, however this is optional. Once all the drawn lines are stitched, it is time to go back in and add the ginkgo leaves. Take your time with this intricate design and it will turn out fabulous!
