LANDSCAPE QUILTS

Stitching Farm Scenes

Kit Robinson

Shown here are more images featuring *Farm Scenes* by some of the artists whose work was shown in the March/April 2018 issue of MQU:

Gypsy ©2016 Barbara Yates Beasley, 20 × 20 inches, and detail.

"This filly was a visitor to Caribou Ranch Open Space during my Artist-in-Residence in 2012. She was watching the other horses in the group. Raw-edge, fused applique was stitched on Pfaff Expressions 4.0 machine with Superior's King Tut, Wonder Fil Tutti, and Coats & Clark thread."

Winter Hills ©2012
Ellen Lindner, 19 × 15
inches, and detail.

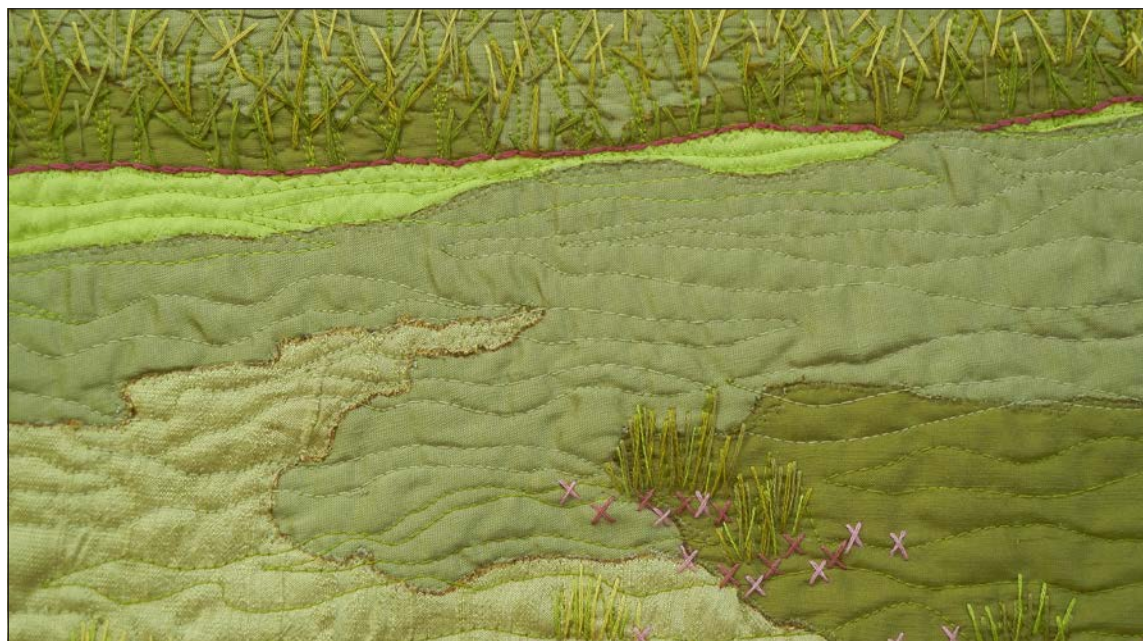

"Although blanketed with snow, these corn stalks travel across the landscape, following the contours of the land. Up and down, appearing and disappearing, moving to the quiet rhythm of farm life. A little hand stitching was, to me, the perfect way to feature them. The entire composition is made of silk dupioni, with burnt edges."

Summer Fields ©2012
Ellen Lindner, 20 × 14
inches, and detail.

"These corn fields are located on my parent's farm in Virginia. The corn is shown tasseling so I used hand stitching to hint at the tangled vegetation. The entire composition is made of silk dupioni, with burnt edges."
